## **General Business**

## Housing project

- Site plan
  - For this plan to work would need permission from the landowners with the neighbouring property for placement on the plan provided.

## Advance Build information

- Show home for these whare is in Waipapa at the yard if you would like to visa.
- Next step is a technical feasibility study at a cost of \$65250, this can be applied for funding for.

#### Feedback

- No whare or workshop is to block the marae view of the maunga/Urupa. We would like all whare to be at the back of the Wharekai.
- Some concerns that six whare is too high due to cost, and logistics of the ongoing management of this number of whare.
- Being closer to the septic system will reduce plumbing costs.
- Henry Murphy to check the minimum houses needed for the TPK Papakainga package.
- Suggest approaching Utakura 7, Te Pouahi and Tupu tonu for funding for the technical feasibility study and the 30% cost of build. Marae contribution is the whenua and sweat equity for all the planning. Katene Ericksen to prepare a letter for each organisation on behalf of the marae for Henry and Sonny to use when they approach these organisations.
- Henry Murphy confirmed that Mt Pokaka is only looking at cabins at this stage.
- Steve Turner is looking at opening discussions with the new landowner to see if they would consider and exchange of the whenua to obtain the paddock between the marae and Urupa for the marae whenua access to the river from the gate.

Motion – Apply for funding for the housing project via Utakura 7, Te

Pouahi and Tupu tonu.

Move - Steve Turner Second - Sandra Mutu

### • Native Regeneration project

800 plants planted since September 2022. 265 trees to be planted this week. Spraying continues to be a recurring obstacle, Okaihau Mowing is unable to complete the spraying. Continue to work at

ΑII

- spraying regularly. Have about 800 further plants growing at home that are a mixture of donated plants from Hokianga Harbourcare and purchased from the marae.
- Need more people to help with the future planting days. Graeme Prebble to advise when we can do a planting day. Katene Ericksen will see if local pre-employment courses can help with weeding.

# Motion to apply for funding for further Pioneer plants for Native regeneration project from Lottery environment and Heritage as well as DOC.
